Installer Crew.**

Be Part of Australia's
Smart Energy Future.

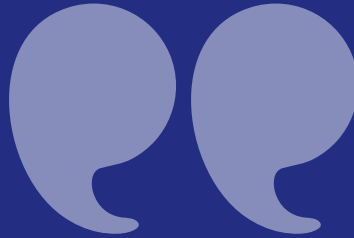

Smart Energy Council's

SMART INSTALLER PROGRAM

*Get the skills, backing, and
know-how to grow your solar
and battery business.*

Become a Smart Installer for FREE.

We've built the Smart Installer Program to help solar businesses grow - with the real-world support, training and industry backing that helps installers stand out and succeed.

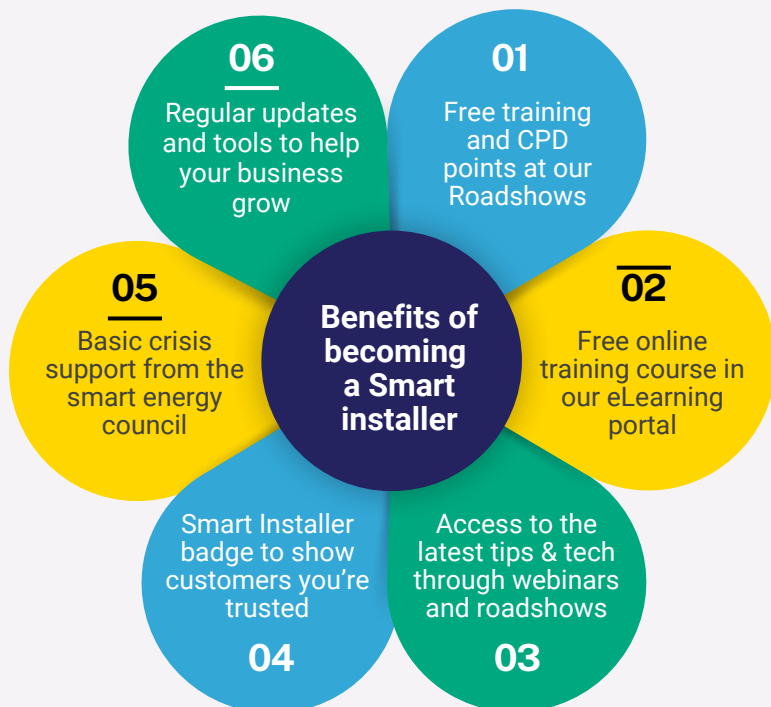

Nigel Morris
Chief Strategy Officer

SMART INSTALLER PROGRAM

More Jobs. More
Trust. More Support.

*When you become a Smart Installer, you're backed by the Smart Energy Council - the crew that's been driving renewable energy for 70 years.
Be part of a trusted national network of professionals.*

If you're an installer or have a crew of installers, this one's for you. The Smart Installer Program is a **free training service** from the Smart Energy Council that helps solar and battery installers stay up to date, build their skills, and stand out from the crowd.

Join **more than 7,000 Smart Installers** across Australia who are already lifting the standard in solar and battery installs.

Note: Becoming a Smart Installer is free, but it's not the same as being a Smart Energy Council member. Membership is a paid service and includes extra benefits beyond the Smart Installer Program.

Become a Smart Installer for FREE.

SMART INSTALLER ROADSHOW

CPD points, skills, mates
& a feed, all in one arvo.

*When learning's easy, fun and earns you free CPD points,
it's a no-brainer. That's what makes our Smart Installer Roadshows the
go-to events for solar and battery installers around Australia.*

At the roadshows, our guest speakers are handpicked experts in their field and we make sure the content is up to date and valuable for everyone.

We also provide plenty of time to learn from your peers, chat to our team about what's going on in the industry and touch and feel new products in our mini expo.

It's the best way to pick up new skills, meet others in the trade, and get your questions answered straight from the experts.

SMART INSTALLER ROADSHOW 2026

Meeting Australia's
smart energy workforce

12 events. 9 cities. An unmissable event for solar & battery installers.

The Smart Installer Roadshow has become a must-attend event for solar and battery installers, and in 2026 it's expanding to 12 roadshows across 9 cities in March, July-August and November.

Each event kicks off with a Member Briefing over lunch, where senior Smart Energy Council staff share the latest insights, updates and what's ahead for the industry. From there, the Smart Installer Training begins — featuring guest speakers, CPD-accredited sessions, and a mini exhibition showcasing new products and technology from our partners.

To wrap things up, Smart Installers are invited to stay for a light meal, cold drinks and a chance to catch up with mates in the trade. It's the best way to stay informed, sharpen your skills and stay connected in Australia's fast-moving solar and battery sector.

- **Big roadshow tour:
12 stops, 9 cities**
- **Meet the crew, grow
your network**
- **Boost your skills
with CPD training**
- **Mini product expo
showcasing new tech**
- **Good feed, cold
drinks on us**

Take the next step

BECOME A SMALL BUSINESS MEMBER

You've already joined the Smart Installer community – now take your business further by becoming a Smart Energy Council Small Business Member.

Start Small. Grow Big.

Join the Smart Energy Council.

If you're a solo installer or small business, becoming a Smart Energy Council member is the easiest way to get connected, supported, and ahead of the game and it starts **from just \$990 a year.**

You'll get access to expert advice, exclusive resources like the Battery Industry Toolkit, training discounts, and the full backing of an organisation that's been fighting for our industry for over 70 years.

Starting small doesn't mean thinking small - it's your first step to building a stronger, more successful business.

And if you're already growing?

We've got higher membership levels with extra perks - from brand exposure to policy engagement and event partnerships. Our team can help you find the perfect fit.

Here's what you can expect as a member*:

The right to vote in Board elections (1 vote/member)

Live chat groups with our team when crisis occur

Quick tools to raise issues that are critical to you

Promotion and directory listings on our web site

Media and promotional opportunities

Monthly newsletter and industry update

Discounts on selected events and services

Invitations to exclusive Webinars

EDMs on important industry news

*Support varies by Membership level, check our prospectus for details

Join now for just \$990 per year

CHEAPER HOME BATTERIES INDUSTRY TOOL KIT

An exclusive member only guide to boost battery sales, train your team, and nail the rebates.

The home battery boom is here — more customers are asking about storage and rebates every day. If you want to stay competitive, grow your sales, and be seen as a trusted installer, this is the toolkit you need.

The Cheaper Home Batteries Industry Toolkit gives you everything to sell smarter, train your team, and stay ahead of rebate changes — all in one place.

And the best part? It's free for Smart Energy Council Small Business Members and above.

By becoming a member, you'll unlock this toolkit — plus access to expert advice, training discounts, and the backing of Australia's most experienced clean energy industry body.

Custom Marketing Tools: Flyers, social posts, and templates to help you win customers.

Sales Enablement Tools: Easy guides and fact sheets that explain batteries in plain English and help you close more deals.

Professional Education & Training: Discounted courses, troubleshooting help, and the Smart Installer Battery Badge.

Program Briefings & Updates: Webinars, WhatsApp alerts, and program documents to keep you ahead of the curve.

Why It Matters:

- Build customer trust with official Smart Energy Council resources
- Close more sales with simple, reliable info
- Reduce mistakes on installs
- Stay up to date with rebate news
- Be seen as part of Australia's leading smart energy network

Who Can Access It:

This Toolkit is exclusive to Small Business Members and above of the Smart Energy Council and includes:

- Use of the SEC Member Badge
- Listing in the Smart Energy Directory
- Crisis support and mentorship
- Priority updates and advocacy

How Much Does It Cost to Join?

- Membership **starts from just \$990 per year**

Join today & get instant access to the Industry Toolkit.

JOIN NOW

We've developed the Cheaper Home Batteries Industry Toolkit to give installers the practical tools, safety know-how and confidence they need to deliver top-quality battery systems - every time.
